Govt of India

USP

Unique end-to-end

Comprehensive Lead Management to Alumni

Rule engine based feature

- Result of 6 years R & D
- Configurable at user end

NAAC, NBA, NIRF & New Education Policy compliant

Big advantage over competitors

Modular integration approach

Integration possible with:

1. Tally
2. Library
3. Biometric
4. Any other

Minimal dependence on our support team

Robust Software: 360-degree view of candidates for the prospective employers

Learning Management System

Replacing expensive software like Moodle

Innovative Task Based NAAC report generation

No last minute rush

✓ Software implementation takes only 3-4 weeks as against up to one year of other companies

Software Modules

Lead Management & Admission
Facilitates enquiry distribution to counsellors / admission teams, follow-up with leads, fill up application form, generate merit list and complete the enrolment process digitally.

Training and Placement Management System
Provides a platform for students to assess their opportunities and also companies to screen candidates for roles they have to offer.

Fees Management
Is a robust system that simplifies the process of fee structurization & collection.

Alumni Management System
Facilitates alumni networking, communication and fundraising.

Attendance
Automates day-to-day attendance registries and makes the process of maintaining records hassle free.

NAAC, NBA & NIRF
Innovative Task Based NAAC, NBA & NIRF report generation system.

Student Assessment Module
Automates exam structure set-up. Tracks and monitors assessments, generates report cards and periodic reports for management.

Document Approval System
Digitizes inter and intra department document approvals.

Student Certificate Management
Issues certificates like Leaving Certificate, Bonafide Certificate etc.

MIS Dashboard
Offers visual insights into the data stored by the Management Information System.

Credibility

- Prior experience of 9 years of providing truly 'World Class' ERP for the Education sector – K12 segment

REPORTS & ANALYTICS

- Extensive reporting for each module
- Analytical reports to help Management make informed decisions

What We Offer

Lead Management System

Application Forms (Provisional Admissions)
with Payment Gateway Integrations

Merit List Generation, selection of students
for admissions

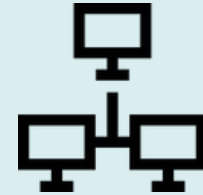

Plug-and-play solutions available for quick
launch

Eg. Google classroom, Zoom, BBB etc.

Regular Usage Modules:

- PRN generation
- Id Cards, Bonafide Certificates, LCs, other documentation
- Attendance
- Exams and Results

Learning Management System:

- Online teaching
- Digital content deployment

Alumni Management:

- Automatic invite and account creation for Alumni
- Upcoming events, Event gallery, Invites and Donation modules

Report Generation for Core and Extended Courses in supporting formats

Lead Generation To Application Processing:

- AI based Lead Management System for complete automation and improvement in selection of lead.
- Lead to Conversation in complete steps from Lead -> Follow Up -> Schedule counseling -> application form to admission process.
- One Page Dashboard for counsellors for quick overview of timeline of the lead.
- Preset status of all leads like New, Follow up date, Not interested, Call later, Interested, Needs counseling, Needs time to think, Converted etc.

Application to Admission:

Once the application is received, we have two steps to convert into admission:

- Some colleges go via Merit List Generation for students who have applied to the colleges.
- Some colleges carry out admission process directly for all students who have filled up the application form.
- Considering both scenarios, we fulfill the admission process by taking all information of the students in details including facility for uploading documents and validation of mobile and email id via OTP.

“Run-The-College” Modules:

Once the admission is confirmed the below processes are in place to run the college:

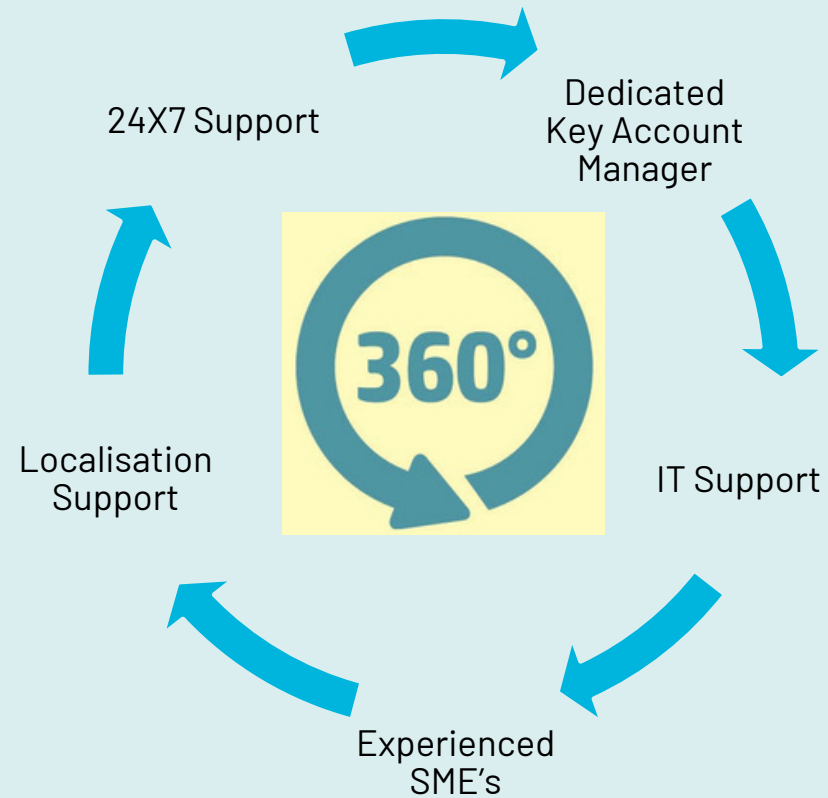

- PRN generation, division allocation, roll number generation.
- Bulk and single generation of student Id cards, Bonafide certificates, LCs, Recommendation letters etc. is available in easy designable formats as per college requirement.
- Hostel & Library Management System and Vehicle Tracking System
- Attendance, Exam & Result Report generation in formats as per college requirement.
- Additional reports for MIS are available in ready formats.
- Credit System compliant for all Programs.

“LMS Modules”:

- Complete integrated Soft Skill Learning for holistic growth of students.
- Courses, Videos, Quiz, Testimonials, FAQs, Attendance System etc.
- Readily Integrated with Zoom, BBB and Google Meet.
- Custom page & post creation for training content.
- Multi language support. (including RTL support).
- Complete LMS Available in Android and iOS.

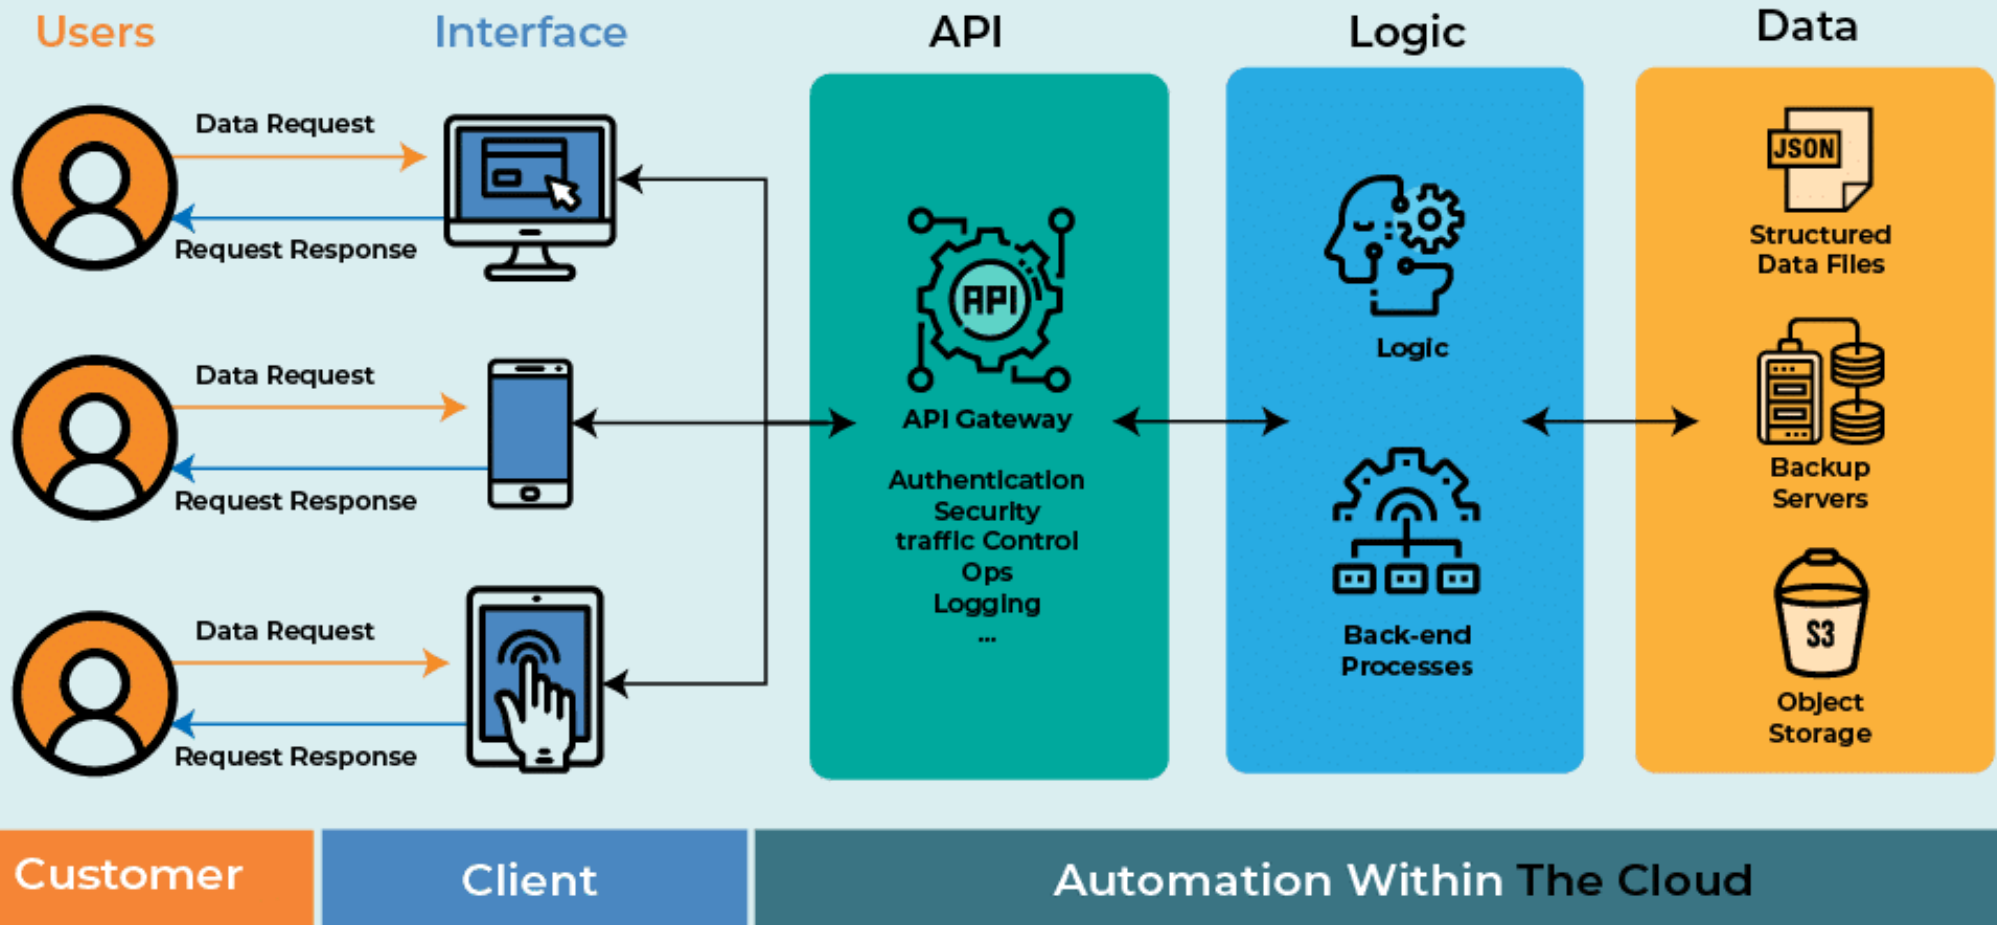

Why choose Divine Campus?

- We provide 360° support to our colleges. A key account manager will be designated exclusively for each college who will ensure task completion within timelines.
- We have a strong team of Developers, Subject Matter Experts, Team Managers and Support Staff hence you can relax when we are handling the difficult task for you.

Technology Stack

Architecture Implementation

Technology Stack
